FAIRTUBE CAMPAIGN | EXPERT CONSULTANT

September 2019

- The FairTube Campaign was a world leading organisation trying to achieve greater fairness, transparency and workers' rights for YouTube creators, in conjunction with the German IG Metall union. In my work as an expert consultant, I shared significant research on the ways in which content creators are subjected to 'algorithmic discrimination' in the form of videos being demonetised, and the troubles that they face in not being able to speak to human

advisers when problems arise. They built these issues into their key proposals to YouTube in their negotiations <https://fairtube.info/en/>

OTHER SKILLS

Photoshop, Final Cut Pro video editing, producing audiovisual media, Excel spreadsheets, diary management and events organising.
